

## *Structured Water effect on Sugar Cane*

*Control*

*Structured Water*

***Intensity (Light Activation Chart) – Red (Control); Blue (Structured water)***

***Effect: Structured water significantly increased cell hydration and light quanta, as observed in the picture. (Over 25% + Notice the luminous absorption in the sugar cane core fed with structured water)***

***Another distinctive feature: Sweetness, flavor and succulence of the cane fed with structured water.***
