## What is Structured Water?

Structured Water is the essence of nature, embodying its innate qualities and intended benefits. It flows with pure goodness, revitalising energy and has an ideal pH balance. This extraordinary water exhibits reduced surface tension and is devoid of toxins and impurities. Harnessing the power of Structured Water is especially advantageous for agriculture, unlocking a multitude of benefits. Crystal Blue's easy-to-install and maintenance-free Structured Water device is a cost-effective solution for all farming needs, ensuring optimal results with minimal effort.

### Benefits

- 💧 **Enhanced Nutrient Absorption:** Structured Water promotes better absorption of nutrients, maximising their availability for plant uptake.
- 💧 **Improved Plant Growth:** The energised molecules in Structured Water contribute to healthier and more robust plant growth, resulting in higher yields.
- 💧 **Water Conservation:** With reduced surface tension, Structured Water penetrates the soil more effectively, reducing water runoff and optimising irrigation efficiency.
- 💧 **Disease Resistance:** Structured Water enhances the resistance of plants to diseases and pests.
- 💧 **Soil Vitality:** By maintaining an optimal pH balance and promoting the growth of beneficial microorganisms, Structured Water fosters a thriving soil ecosystem.
- 💧 **Reduced Chemical Dependency:** Reduces the reliance on chemical inputs, promotes sustainable and environmentally friendly farming practices.
- 💧 **Extend the Life of Irrigation System:** Prevents clogging of emitters and nozzles, thereby increasing their efficiency and lifespan.

## Dependable Performance, Proven Outcomes

A 26% increase in growth was observed during Gherkins cultivation at Sira

Yield increased 14% during Zucchini cultivation at Coonor

Beans yield increased by 38% at Mysore

Sweet Potato yield increased by 37% at Mysore

Button shedding reduced considerably in Coconut cultivation at K R Pet

Yield increased 35% during Tsunami cultivation at K R Pet

Yield increased by 37% during Cotton cultivation at Raichur

Sugarcane exhibited better growth, increased stem width and length at Bannari

Mulberry crop - total weight of leaf increased from 800 kgs to 1400 Kgs at Sargur

## TESTIMONIALS

Organic fertilizers were used only once during planting and no manure has been used. Previous yield with Borewell water = 26 tonnes Yield with Structured water = 30 tonnes.

*National Award Winning Farmer,  
K R Pet, Mandya District*

The Growth & Health of the plant is considerably very good after using Crystal Blue. The leaf width, colour & appearance have improved compared to Normal Water.

*Progressive Organic Farmer from  
B. G. Sargur, Karnataka*

Crystal Blue reduces clogging in drip lines.

*Leading Farmer from  
Kambainallur, Dharmapuri*

# About Crystal Blue

Crystal Blue is a trusted manufacturer and supplier of advanced Water Structuring Units designed specifically for the agriculture sector. Our state-of-the-art technology harnesses the power of vortex flow, minerals, and materials to optimize water quality by mimicking its natural flow patterns. With our innovative products, farmers can unlock remarkable benefits for their crops and irrigation systems.
