## What is Structured Water?

Structured Water is nature's intended form of water, embodying its innate qualities and benefits. With a soft texture, energised molecules and an optimal pH balance, it represents the epitome of natural goodness. Unlike regular water, Structured Water has lower surface tension and is free from toxins and memory.

In poultries, Structured Water is exceptionally advantageous, offering a multitude of benefits. Crystal Blue's easy-to-install Structured Water device requires no maintenance or electricity, providing a cost-effective solution for all commercial and industrial applications. Experience the power of nature's perfect water with Crystal Blue's Structured Water device.

## Benefits

Crystal Blue's Water Structuring Units are a one-time investment that requires no maintenance.

- 💧 **Enhanced Hydration:** Improves water bioavailability, helping birds in absorbing and utilising vital nutrients effectively.
- 💧 **Improved Nutrient Absorption:** Better digestion, nutrient utilisation and accelerated growth rates.
- 💧 **Healthier Environment:** Reduce the risk of waterborne diseases and create a healthier living environment for your poultry.
- 💧 **Optimal Digestive Health:** Maintain a balanced pH level, promote gut health and foster the growth of beneficial microorganisms in your birds' digestive tracts.
- 💧 **Boosted Immunity:** Strengthen the immune system of your flock. Reduce disease incidence and enhance overall resistance.
