What is Structured Water?

Structured Water is water in its natural state, possessing all the innate qualities and benefits intended by nature. It is imbued with natural goodness, exhibiting a soft texture, energised molecules and an optimal pH balance. This type of water also possesses less surface tension and is free of toxins and memory. Structured Water is particularly advantageous for textile industries, offering numerous benefits for manufacturing and production processes. Crystal Blue's Structured Water device is easy to install and requires no maintenance or electricity, making it a cost-effective solution for all commercial and industrial applications.

Benefits

- 💧 Drastically reduces the need for the addition of chemicals to the pool water.
- 💧 Structured water is naturally soft. It thus prevents scaling issue.
- 💧 It keeps the pool walls scale-free and clean.
- 💧 Keeps the metal surfaces shiny and extends the life of plumbing.
- 💧 Reduced Eye Irritation

Proven results

An innovative water solution that guarantees maintenance-free pool water treatment.

A lifetime solution that guarantees soft, clean, pure and energized water.

Drastically reduces the need for the addition of chemicals to the pool water.

Naturally neutralizes the toxins and creates an environment that is unfavourable to the growth of algae or bacteria.

High saturation of oxygen in structured water decomposes the organic debris that algae and bacteria feed on.

No buildup of scales on the walls of the pool or in the plumbing.

The water is naturally pure. It is good for the hair and gives glowing skin.
